
2nd Russia-Japan IT & Innovative Technologies Forum

Nov 26, 2013

Russian Embassy in Japan

Forum organizers

- Russian Cooperation Agency
- Japan-Russia Association
- Hitotsubashi University Institute of Innovation Research
- Foreign Information Industry Forum (Japan)
- Meridian Capital
- Strategic Choice Advisory

Greetings

Dear Forum participants, Ladies and Gentlemen!

It is a real honor and privilege to welcome you at the 2nd Russia-Japan IT & Innovative Technologies Forum in Tokyo! The main goals of the event are facilitating better understanding of the trends and prospects of IT and innovation in Russia, and creating a framework for stepping up Russian-Japanese cooperation between technology companies, R&D centers, universities, investors and relevant government bodies.

The previous Forum, which took place in February this year, attracted live interest of the Japanese IT society, gathering around 80 companies from various market segments, together with established Russian companies working in Japan. This time the agenda has been broadened to include a wider range of innovative technologies, and we expect participation of over 130 guests, including senior Japanese officials and representatives of Russian development institutes, major Japanese market players and investors, successful Russian innovative technology companies, and R&D centers at the leading universities in IT and innovation research in both countries.

Today, even as the world struggles to rekindle economic growth, the need for innovation and new technologies becomes all the more evident, making our joint efforts to this effect all the more important. Together with the development of overall Japanese-Russian relations and the possibility to utilize existing synergies between the two economies, we have an opportunity to leave a lasting impact in the lives of people who can benefit from new technologies. We strongly hope the Forum will help develop an understanding of cooperation possibilities and stimulate further activity toward joint realization and investment in IT and innovation in Russia and Japan!

Forum Program

Speaker and guest registration – 2:30-3:00 PM

Section 1: “Russian IT & Innovation Market - Prospects and Opportunities”

Forum opening:

Event Organizers

РОССОТРУДНИЧЕСТВО

Федеральное агентство по делам Содружества Независимых Государств,
соотечественников, проживающих за рубежом, и по международному гуманитарному сотрудничеству

Russian Cooperation Agency

In 2013 the Federal Agency for the Commonwealth of Independent States, Compatriots Living Abroad and International Humanitarian Cooperation, commonly known as Rossotrudnichestvo, celebrated its 88th anniversary. For many years the Agency has been working in the field of people's diplomacy as well as cooperation in the fields of culture, education, and science.

Hitotsubashi Institute for Innovation Research

The Institute of Innovation Research was established in 1997, at Hitotsubashi University, the oldest business school in Japan, to conduct empirical and theoretical studies on innovation from not only technological but also sociological perspective. It has lead the innovation studies in Japan by publishing "Hitotsubashi Business Review," one of the most prestigious quality magazines and by organizing various international conferences on the matter.

Foreign Information Industry Forum

Established in 1991, FIIF unites Japanese IT companies with foreign capital participation, playing an active role in facilitating business development and international cooperation with the participation of Japanese IT market players.

Japan-Russia Association

One of the most authoritative private interchange organizations in Japan. Conducted numerous joint activities between Japan and Russia. It was established in 1965 for the purpose of promoting friendship between the two countries (Japan-USSR, then Japan-Russia) through human, cultural academic and economic cooperation. It was authorized and established as a non-profit organization (NPO) in May 2001.

Meridian Capital

Meridian Capital is a group of independent Russian companies providing various business, financial and legal services to both domestic Russian and foreign companies. The Company was established in 1997 by a group of Russian and Western professionals. Member of Global M&A Partners since 2001.

The company focuses on small and midcap transactions from USD 2 to 100 mn. Offices in Moscow, St. Petersburg and Munich. The staff totals 45 employees. Founders participate directly in the work of the company. Presently, Meridian Capital group is engaged in the following activities:

- Corporate Finance and M&A
- Project Management
- Accounting outsourcing, Tax consulting & HR
- Legal services
- Creditworthiness background check
- Due Diligence
- Immigration Assistance Services
- Technology Transfer Services

The company's partners also have significant experience of working in Boards of Directors: both in growing companies with institutional participation and in large well-established businesses.

Strategic Choice Advisory

Strategic Choice Advisory is a dynamically growing, Russia-headquartered strategy and transaction advisory firm, founded in 2009, with presence in Moscow, St. Petersburg, Tokyo, Seoul, Beijing, Hong Kong, and London. The firm unites 30 top-notch management and investment advisors with an exemplary track record and capabilities to render services in a broad range of economic sectors.

Among the firm's clients are Russia and APR government institutions, market majors in machinery & engineering, IT, petrochemicals, agriculture & food manufacturing, among other industries, as well as innovative technology companies and R&D centers.

Over and above all, the company is keenly focused on developing and adhering to highly effective economic, financial analysis and efficiency improvement methodologies, achieving excellence in servicing its customers, and building an enjoyable and rewarding working environment.
